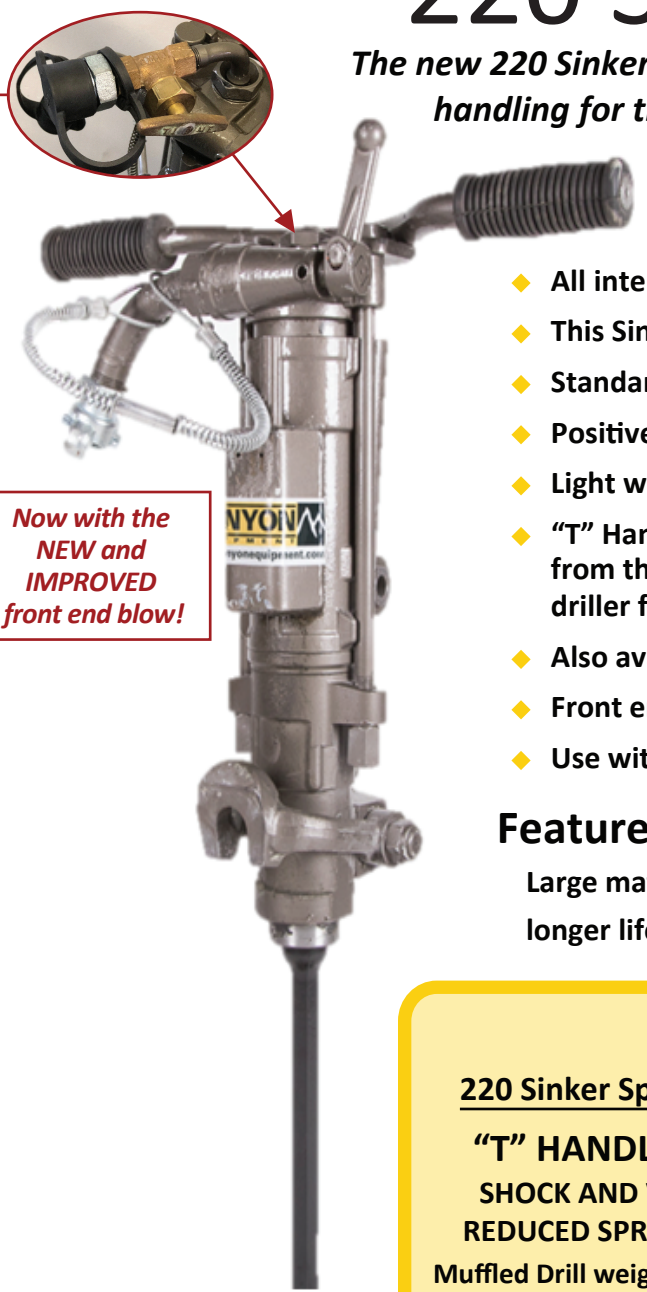
220 Sinker Drill

The new 220 Sinker Drill is very light weight with easy handling for those smaller drilling projects.



Now with the NEW and IMPROVED front end blow!

- All internal parts in 220 Sinkers are also used in 220 AV Jacklegs.
- This Sinker Drill delivers High Frequency Penetration.
- Standard operating controls are located on the drill backhead.
- Positive lubrication with strong front end blow.
- Light weight balanced handling.
- "T" Handle is spring loaded to reduce the transference of vibration from the rock drill to the drill operator's hands and arms. Lessens driller fatigue.
- Also available in Rigid Handle Model.
- Front end locking steel retainer for collared steel standard.
- Use with rock drill oil or grease.

Features

Large mating faces on components bodies for less wear and longer life. Reduced weight for ease of handling.
